School Trustee Nominations Monday

Nominations take place Monday for the election of three trustees for Strathmore School District. The election being rendered necessary by the resignation of three trustees last week. In the event of more than three trustees being nominated for the vacancies, an election will be held on the following Monday. Details regarding nominations will be found in our advertising columns.

DUCK SHOOTING OPENS

Many sports were out before day-light on Saturday morning, when the duck shooting season opened. Besides local men, many were down from Calgary. Bags were not as large as in former years, the birds not being quite plentiful, but whether this is due to the opening being fifteen days later, or to some people opening the season unofficially earlier than the official date, is not known. Anyway, what ducks there were seemed to be flying high, and were very wary. However, most of the parties who went out were rewarded by some birds, and they all felt the better of the early rise.

A MERCHANT SAYS

"There are many lines of publicity that the country store can use to advantage, but the one he can use to best advantage is his home-town paper. I venture to say that if the money spent each year for fancy calendars and other knock-knock giveaways were invested (I say invested, not spent or donated) in carefully planned & well-timed publicity, the actual net return to the advertiser would be ten times as great, to say nothing of the advance in the circulation paper would derive from the additional and much-needed revenue."

—Charles E. Blackwell at the Unity Day Conference.

(Editor's Note: Mr. Blackwell is an Okanagan, Washington, merchant and is said to be the most successful country merchant in the state.)

School Fair Today

The third annual Strathmore and District School Fair is being held at Strathmore School today. The pupils and teachers of the competing schools are showing great interest, and the various exhibits will be well worth seeing. The fair is held under the auspices of the Provincial Department of Agriculture, which supplies the judges, and the livestock prizes. The other prizes are contributed by the trustees of the board of the various schools in proportion to the number of rooms.

Last year the exhibits were of a high standard, and some were prize-winners at the city winter fair, and there is every probability that this year's exhibits will surpass last year's, the season having been much more favorable.

"Every Dog Has His Day"

But This One Used Up Two Nights

The fate of a dog brought a large number of witnesses from Elwood District to the J. P. Court, in Glendon, on two evenings. The proceedings on Friday evening lasted from 8 p.m. till midnight, when the case was adjourned till Monday. On Monday the court again opened at eight p.m. and closed at 2 a.m., judgment being reserved.

The prosecutor was Mike Mason, who alleged that Walter Armstrong, engineer with Leo E. Pinkerton, had willfully killed or injured a dog, the property of the complainant, on which he put a value of \$100. The defence estimated the value of the dog in cents. The shooting was alleged to have taken place in the neighborhood of Elwood station. The evidence for the prosecution was heard on Friday, the witnesses being Mike Mason, Stephen Hamrick, Harvey Hanson, Mrs. John Drummond, and R. H. Aderson.

The evidence for the defence, heard Monday, was given by Leo E. Pinkerton, Orville Hanson, Walter Armstrong, and by three of his workmen.

David, Glendon, appeared for the prosecution and Mr. T. M. Wear, Strathmore, for the defence.

Rosebud News

Mr. Nancy O. Purkie of Youngstown, Alta., will speak to the Ladies and young people on Saturday at 2 p.m. sharp in the Seven Creek school and in the evening will speak to the job in Rosebud United Church, at 8 p.m. She will talk on Reformation issues of the present campaign.

The chicken supper and entertainment held in the church Saturday night was well attended. The supper was excellent, and plenty of it. The entertainment was given by Mr. Johnson in the bank, and was mostly tricks to deceive the eye. That alone was well worth the price.

We regret to lose our young pastor, Mr. Kirkwood, who is leaving to complete his course in the study of ministry. He has made many and staunch friends during his short stay in the community, and we wish him all the success possible in his chosen work. He leaves for San Francisco this week.

Harvesting is nearing completion, and threshing has begun with reports of a large yield and excellent quality grain.

Edgar Shultz is suffering from an attack of pleurisy.

Mr. Spence is on the sick list.

Threshing Results Better Than Expected

Big Yields

Crops throughout the Western Bow Valley, where not damaged by hail, are going to yield very well this year. Threshing is only getting under way so far, only a few rigs having been at work last week, but the results have been exceptionally good, over fifty bushels wheat per acre having been threshed in several cases, while even on stubble the yield went over twenty. Cutting is now nearing completion, though some small patches have yet to come under the binder, and a considerable amount of stocking remains to be done. Threshing is in full swing now.

The first wheat to be shipped into Strathmore was by Mr. E. V. Todd. It was taken off the No. 248 Elevator. Geo. Stewart, manager, graded No. 1, and weighed 64 pounds to the bushel. Namaka was the first point in the district to receive the new crop. Mr. Sims' outfit having been threshing for the past ten days.

A number of threshing outfits have been sold by local implement dealers. On a field of 42 acres breaking, Mr. Jim Nelson threshed 52 bushels per acre. He is now threshing on summer fallow, and reports that the grain is turning out well also.

Mr. E. K. Garrett is reported to have threshed 16 bushels wheat per acre last week.

Messrs. Swenson and Boyles were last week threshing on stubble, and the stubble crop, which is regarded as their poorest, has yielded between 25 and 30 bushels per acre. This week they are threshing on summerfallow.

Mr. E. V. Todd's summerfallow averaged 25 bushels per acre. He had already received on this an adjustment of thirty per cent. on account of hail. J. B. Sims' outfit threshing on stubble, yielded over 20 bushel wheat per acre, with 16 per cent. hail damage.

As reported in the Rockyford section of this paper, Mr. John Sims has threshed the remarkable yield of 52 bushels per acre on 26 acres, and 52 bushels per acre on 400 acres. These are the results we have received so far. Most threshing outfits are just starting this week, and have not threshed enough to reckon their yields.

We would be glad to receive from farmers and threshing outfits details of their yields for the public information.

CURLING

A well attended meeting of Strathmore Curling Club was held in the Strathmore Hardware Monday evening.

Officers for the forthcoming season were elected as follows: President, A. B. Foote; Past President, W. C. Watt; Vice-President, T. E. Wright; Secretary, P. R. Dobson. Auditors, H. Tompkins and Joe Ferns. Executive, H. VanBurke, Geo. Stewart, E. N. Ridley, and Joe VanTighem.

The threshing officers were accorded a hearty vote of thanks. The appointment of a rink manager was left with the executive committee.

It was agreed to proceed with the necessary improvements, and to buy skates from the Crown Lumber Co. It was also decided to borrow \$500 to finance the improvements.

The drive committee are going ahead and signing up members. The male membership is limited to sixty.

Mr. and Mrs. J. W. McIntosh and Mr. and Mrs. Geo. Inkster, of Namaka, were visitors to Three Hills on Sunday, September 16. Guests of Mr. and Mrs. H. J. Murray, formerly of Namaka.

Irricana News

Mr. H. Kempton disposed of a couple of car loads of calves. Mr. W. Elliott was the purchaser.

Threshing will be general throughout the district by the end of the week. Mr. F. M. Widner being first to commence. Wheat shows good color and grades high.

The Craigha Gun Club, who shot over Mr. Howell's reserve on Saturday, report a good day's sport. Ducks, however, were in the minority. Members of the club are of the opinion the season should not open earlier than October 1st.

Mr. Fred Davis was a business visitor to Calgary during the week.

Another serious accident which nearly resulted in the death of one of a party of hunters occurred on the Decker Hill, on Saturday. While the Government was erecting a guide rail on both sides of the dangerous death-trap.

The local Landlord Aid met at the home of Mrs. J. D. Amos on Tuesday evening last, accompanied by their husbands.

Mr. D. Howell is a business visitor to Calgary.

Mr. John Mackenzie, editor of the Standard, was visitor to Irricana on Friday. Mr. Frank Butler accompanied Mr. Mackenzie.

HAIR BOARD DECIDES ON TWELVE PER CENT RATE LOSSES HEAVY

A 12 per cent. rate for 1922, was decided upon as necessary by the board of directors of the Hair Insurance Board of Alberta at a meeting last Monday afternoon. Heavy losses, reaching more than 11 per cent, of what made it necessary to strike the higher rate over set by the board, but confidence was expressed by them that the continued support of the farmers would make it possible to operate at a lower rate. As expressed by one of the board of directors, the cost in some years will be heavy, but over a term of years the directors feel confident that the rate will be less than may be obtained by any other plan.

Big Sum Paid Out

In the report submitted to the board of directors by the executive of the hair board on Monday, it was shown that \$2,389,201.17 has already been paid out in claims this season and in addition there are claims amounting to approximately \$12,000 unpaid. Provision also had to be made to cover additional claims that may come in within the next two weeks. The liability of the board for pay losses does not close until October 1. It is estimated that the total awards will amount to more than \$2,430,000.

PRESIDENT BEATY ON THE NEW CONTRACT

President E. W. Beaty is on his annual tour of inspection of Western lines at present, and past through Calgary last week.

When in the city he was interviewed by a reporter, and spoke on a variety of topics. With regard to the new thirteen-year land contract system, he stated:

"From the records in our department of natural resources, it is apparent that the new long term payment contract on our land is regarded by the great majority of our country holders as satisfactory. It undoubtedly is regarded in the United States, Great Britain and in European countries as constituting a great stimulus to immigration."

M. D. Bow Valley Council Meets

The meeting of the Council of M. D. Bow Valley, which took place on September 12, was largely concerned with tax collections. The Council are making a determined effort to collect the arrears this fall, and are asking farmers to give an assignment of their crops to cover the taxes.

The floor of the Carseland bridge was stated that \$500 was realized from the auction sale of cool car tanks, wagons, and other belongings to the Municipality on August 18. The two tractors, which were not sold, had been put in the hands of the Northern Machinery Co. for sale.

A protest was lodged against the impounding of a number of cattle at the instance of Mr. W. C. Tucker, under the provisions of the Domestic Animals Act. The Council advised the matter among themselves.

The floor of the Carseland bridge has worn through in places. Mr. Lauson reported that he had made temporary repairs, and a report had been sent to the Department of Public Works.

Bert Huffman Announces The Council's Loss

A letter from Mr. Bert Huffman was drafted in such terms that the Council decided to put the matter in the hands of a solicitor, and request an apology, failing which legal action would be taken.

DEMONSTRATION FARM FILLING SUNFLOWER SILOS

The C.P.R. Demonstration Farm is now filling the eighty-acre crop of sunflowers raised there, and filling them into their four state silos and 2 trench silos. The total capacity of the silos is about 1500 tons.

The sunflowers have been in bloom for several weeks.

Cheadle Notes

The Misses Muir, of Calgary, spent the weekend at Mr. Frank Simons' home.

Mrs. O. C. Craig spent the weekend in Calgary with her daughter, Mary, and her sister Mrs. Chalerant. Cecil Edwards is expected home some time this month.

Jimmie Halcip, our station agent, is away on his holidays, and is being relieved by W. W. Robertson, of Strone, Alta.

Cutting is about completed in the district, and threshing will start this week. Jimmie Rae has been threshing for a few days, but the rain on Saturday stopped them. Messrs. Pioner, Cowell and J. Payne should be going strong this week.

There will be some big yields per acre on some fields, and the quality of wheat should be good if the weather stays good.

The binder twine problem has been bad, as no one seems to have ordered cutting twine more widely. Some of the crops have taken 4 1/2 pounds to the acre, and whole farms have averaged 2 1/2 for all crops.

FINED FOR THEFT OF TOOLS

A young farmer pleaded guilty and was fined \$15 and \$30 costs by Justice Macneil and Vickery at Strathmore on September 12, for the theft of a number of tools from the threshing outfit of Mrs. J. B. Sims, at their farm near Namaka. The tools were found by Constable S. H. Hale of the A.P.F. under the floor of a building within half a mile of the threshing outfit, and the theft was traced by footprints. Two younger brothers of the accused were given a severe lecture by the bench.

Standard News

Mrs. George Peterson returned home from the Calgary Hospital last week.

Mrs. F. D. Knowlton returned last week from a three weeks visit to Armstrong, B.C.

Mr. and Mrs. Made. Sorensen desire to render through the columns of the Standard, their sincere thanks for the many useful and suitable gifts presented to them on the occasion of their marriage a month ago.

Messrs N. P. Nelson and J. L. Poon have purchased a new threshing machine and will begin work this week.

Quite a number of the threshing machines are now in operation through the district and things are beginning to look lively now.

PRESENTATION AND SOCIAL

A very enjoyable evening was spent in the Memorial Hall on Friday evening last by members of the G.W.V.A., Ladies Auxiliary, and friends, as they met to get Comrade P. C. Naimish, President of the Local Association, and his bride (nee Miss Helen Gray). The presentation took place at midnight, following lunch, and consisted of a handsome mantle cloth, subscribed for by the members of the Association. The presentation was made on behalf of the Association by Comrade Gardner, Past President. Comrade Naimish responded in fitting terms on behalf of his bride and himself.

The earlier portion of the evening was spent in cards, and later on the floor was cleared and dancing carried on till an early hour to the music of Hirtle's Orchestra. At midnight a fine supper was served by the Ladies Auxiliary.

CONTRIBUTES \$700 TO PROVINCIAL EXCHEQUER

Frank Miller, proprietor of the Kings Edward hotel at Strathmore, was fined \$700 and costs, with the alternative of three months in prison, when found guilty of keeping liquor for sale, by Magistrate Sanders, in the police court on Wednesday morning.

Inspector Nicholson and an A.P.F. constable testified that they caught Miller in the act of selling a bottle of beer that ran 8 1/2 per cent. alcohol. C. W. Cooke prosecuted and A. Macleod Sinclair defended.

Questioning Inspector Nicholson about the testimony of a key containing 23 bottles of beer under a waterpout at the back of the hotel, Mr. Sinclair asked if the witness knew anything about the occupants of the premises next door. The witness said he did not.

—Herald, Calgary.

DRUGS ARE CAUSE OF PENALTY

Mr. Wm. Lauris, Carseland, appeared before Justices Lambert and Vickery on Wednesday, on a charge of having in his possession, a quantity of poisonous drugs, contrary to the Alberta Pharmaceutical Act, prosecuted by the A.P.F. Inspector under the Act, presented by Constable S. H. Hale. Evidence was given by Constable Hale, A.P.F., that he had bought the premises along with Mr. Piffie and found the drugs, which were produced in evidence. Defendant who was represented by Mr. Carson, barrister, Calgary, stated that the drugs found were not intended for sale to the public. He had bought them with the other stock from Mr. W. M. Marshall, and had not found time to dispose of them.

After deliberation, the Justices imposed a fine of \$50 and costs.

Men's & Boys' Underwear

This is the beginning of the Underwear Season, and our Stocks of Underwear in Medium, Heavy and Fine weights are complete, for both Men and Boys.

We carry such lines as STANFELDS, TIGER BRAND, WOOLSEY and VIKING, and our prices are absolutely the lowest, taking quality into consideration.

Men's & Boys' HOSIERY

This is also the beginning of the hosiery season for Fall.

We have a complete stock of woolen footwear in both Men's and Boys' hand-knit socks of the very best quality in heathers and other mixtures; Cashmere and worsteds.

A complete line of Men's Work Pants, Men's Leather Vests, (the best values in town), Sheep Coats.

See our line of Leather Lined Overcoats and Mackinaws, Gloves, Mitts, etc.

United States newspapers are filling their papers with pictures of beautiful young women who are contesting for the beauty prize at some function at Atlantic City. A discerning and industrious person could pick an equal number more attractive by taking a short walk about the streets of this city any bright and sunny day in noon. —Albertan

The Banff National Park, Alberta, contains three great groups of mountains, the Asiniboine group to the south, the Laurentian group to the north, and the House of Wapiti group along the crest of the Divide north of the railway.

Carceland Notes

Mr. Fortner, the new bank manager, and his family, moved into new Parkway House last week.

Mrs. G. S. Field, Mr. and Mrs. Jamieson, and G. C. Melony after the Calgary last Sunday.

It has been reported that Jim Nelson threshed 23 bushels of wheat in the acre all one piece.

Mr. Conway, of the A. P. Elevator, distributed cures to the school children last week.

Ben Cook and C. P. Baker are busy cutting sandwafers for sales, and G. C. Melony repairs his corn and pump in the pit. Both Martin and Chris Christensen have decided not to run their corn, but they are using it for pasture.

Mr. and Mrs. Rapp are sporting a new car these days.

The harvest is practically completed in our district, and some are already threshing. Ed Wilson is steamed up ready to begin early Monday morning. Martin and Chris Christensen are also in the field.

Mrs. L. Tuffner is busy entertaining her brother and his wife, who are spending a short holiday motoring through Alberta.

Mr. Van, Leirre, the druggist, has again taken on his old custom of serving lunches at any time during the day.

For the first time this year the irrigation ditches are full of water, as the farmers are busy filling sloughs for winter use.

The rain last Saturday put a halt to harvest and threshing.

Mr. Cole is having a new room built to the back end of his store.

The gravel hauling for the new school is completed.

Golf News

The third round for the men's championship has just been finished, Hill defeating VanTiehem, Fort defeating Dobson, and Williams defeating Patrick. Hill drew a bye in the semi-finals, and Williams defeated Patrick. The final match for the cup will be played this week between Hill and Williams.

In the third round for the women's championship Young defeated Hildy. Leinwell defeated Lydiatt, while French and Haines did not play their match. The final match will be played this week between Young and Leinwell.

In the Ladies' matches the results will be played this week. Mrs. Patrick v. Mr. VanTiehem, Mrs. Riley v. Miss Watson for the cup.

Mrs. Girvin v. Mr. T. Chamberlain, Mr. French v. Mr. Leinwell for the medal.

The prize for the Ladies' golf trophy a handsome Indian robe, was won by Mrs. Davidson, at Mrs. Girvin's table, with a score of 1510.

THE NEW DODGE

Marked improvement in appearance and comfort is apparent in the new line of Dodge Brothers Motor Cars, in the production of which the factory has been gathering momentum since July 1. Hundreds of dealers are now supplied with display cars of the new type, and from every source the public is receiving reports of enthusiasm expressed by the public.

While the basic characteristics of the familiar Dodge Brothers cars of recent days are still present, there is an air of distinction that suggests all previous efforts of this concern to build a moderately priced car of commendable appearance as well as quality.

The wheelbase is a little longer, the body is lower and the rear spring changed to semi-elliptical type and underlining, and increased from 45 to 55 inches in length.

All the features are popular with the public today are embodied in the design of the complete line, which includes a touring car, roadster, coupe, two types of sedan, a screen side and panel side commercial cars of 2 1/2 ton capacity. All steel bodies as first introduced by Dodge Brothers in their open passenger cars several years ago are now used for all types.

The effect of the longer and lower body and longer wheelbase, combined with the new lines and lower seats, is very fine. According to dealers and others who have driven the new cars, the improvement in riding qualities is no less pronounced than the improvement in general design. The reduction of the body height lowers the center of gravity and thereby reduces sway, while rebound shocks are effectively dissipated by the improved front and rear springs. The car holds the road easily and gracefully and affords real riding comfort.

The third year ending July 1 was the most successful in the history of Dodge Brothers, their dealers having marketed approximately 200,000 cars.

DODGE BROTHERS MOTOR COMPANY LIMITED ANNOUNCE IMPORTANT IMPROVEMENTS

Dodge Brothers have not simply brought out a complete new line of motor cars. They have done something infinitely wiser and better than that.

They have brought new beauty, new riding ease and new mechanical perfection to the product on which their reputation as builders has been founded.

They have built a better and a more desirable line of motor cars—yet basically and fundamentally the identity of their product remains the same.

The same sturdy engine is under the hood the same dependable chassis, improved in numberless details, underlies the body.

But the rear springs—now underslung—have been materially lengthened. The wheelbase, too, is longer, and the combined result is a notable improvement in riding qualities.

H. W. B. BELL
Strathmore

With the improvements now put into effect, obviously making the car better and more attractive in every way, though still retaining the essential attributes to which the car owes its great popularity, it seems quite evident that this company has not yet reached the maximum of its development, despite the tremendous record of the year just closed.

Letter to the Editor

DISPUTES BEYOND FIGURES

12410n, Strathmore Standard.

Calgary, August 20, 1927

The Canadian Press recently carried an article dealing with part of the reply of President E. W. Beatty, of the C.P.R., to an article which has appeared in the Montreal Star. We consider Mr. Beatty's statements as leading to those not familiar with the C.P.R. methods of selling lands. We should therefore like to ask a few questions, for we feel that you will wish your readers to give this question their most careful consideration, and that you will be willing, in your column, to provide farmers with an opportunity to discuss a matter which is of vital importance to many thousands of them in Western Canada.

Mr. Beatty states in part, "Up to the end of June, 1925, the Canadian Pacific Railway Company had disposed of 18,194,727 acres of agricultural lands for which an average price of \$7.57 was received."

Will Mr. Beatty kindly state if this was the average selling price to the seller, or does he mean this is the average amount received on the contract price? If it was the average selling price, what portion of the land was sold by the C.P.R. to speculators and colonization companies or to subsidiary companies of the C.P.R.? Also what percentage of the land he received was sold prior to 1906, when the company were selling their lands at \$2.50 or less per acre? We might here state that so far as we can be ascertained there has been no land sold by the C.P.R. to settlers since 1906, as low as the average price stated above.

Mr. Beatty further states, "The average price received for the sale of non-irrigable land was \$7.56 per

acre in the year 1922." Will Mr. Beatty state what is the average distance of this land from railway facilities?

It is not a fact that since 1915 the C.P.R. have been selling their irrigated lands in the Eastern section of their territory at \$20 to \$25 per acre, and the dry land at \$10 to \$25 per acre? Mr. Beatty states that the C.P.R. have brought into the country 160,000 farmers. They now claim 20,000 contract holders of their lands.

This, we believe to be correct. Investigations last winter showed that none of the Colonization Companies were able to retain more than 30 per cent. of the number they had claimed. The C.P.R. now claim 20,000 contract holders. What have become of the 76,000, and why have they left?

It may be a benefit to the C.P.R. to have in these farmers and sell their lands and receive their cash payments and have then send their money to improvements, but it does not seem to us that it speaks very well for Canada to be losing two millions of dollars in the sale of their lands.

If their settlers have bought their lands at an average price of \$7.57 per acre on 20-year contracts, why has it become necessary for the C.P.R. to extend their time of payment for another 24 years?

Further Mr. Beatty says, "Up to the end of June of the present year the company have expended in irrigation construction and operation, for ready-made farms and improved farms for home to settlers for buildings, livestock, for agriculture demonstration, and furberance of the livestock industry, and in other ways in connection with the disposal of land and the assistance of agricultural effort in Canada, an aggregate amount of \$4,616,000."

It will be noted that this money was expended in such a way that it is now bearing interest. If it had been returned in cash to the C.P.R. One of the C.P.R. officials stated before the coal investigation at Ottawa that they absolutely would not send a dollar to get back a dollar, that where they spend a dollar, more than a dollar must come back. Did not the C.P.R. gain much more money through the suspension of the Crow's Nest Pass Agreement in moving the wheat crop of Canada than all the money they spent on develop-

ment referred to by Mr. Beatty above?

Mr. Beatty also speaks of the influx of 7,000 harvest hands from the old country, which the C.P.R. are responsible for bringing into the country. If Mr. Beatty could sit among some of the groups of harvest hands and hear them tell of all the misadventures (some which had been made to them by agents of the C.P.R. to get them to spend the last dollars they could gather with the C.P.R. for bringing them over, and how it would take the last dollar they could possibly earn to pay for carrying them back home again, he would get one answer to the question as to why people are leaving.

Mr. Beatty states, "The Lands of the Company are for sale at reasonable prices to anyone who desires to devote them to the purpose of settlement."

We know of no C.P.R. lands for sale in the western section at reasonable prices, that is in any price based on the productive ability of the lands over a period of years with an average perpetuation.

Will Mr. Beatty be willing to make new contracts with the 20,000 settlers he now claims the C.P.R. have left, at the average price at which the C.P.R. have been selling land, namely \$7.57 an acre?

If he will, we can assure him that the company will not be called upon to give the settlers 24 years in which to make the payments and the C.P.R. will not need to keep high salaried immigration agents in all foreign countries to procure settlers, for the 20,000 farmers they now have will all then become active immigration agents in other ways in which to come and settle on some of the vacant lands about them.

Yours faithfully,
G. E. Carpenter, Chairman,
W. D. Trogo, Secretary,
C.P.R. Contract Holders' Immigration

1924. Note—We have had some comment in publishing this letter, as it is dated August 20th, but was written on August 15th, the morning of September 17. We understand that it has appeared in other newspapers at an earlier date. We wish to be fair to everybody, but do not intend to be obligated to publish letters to the editor when they have come in the shape of publication in other mediums.—Ed. Standard)

FRUIT! FRUIT! FRUIT!

The announcement made last week that we were shipping in a car of mixed fruit direct from B. C. Growers met with an immediate response, and some lines in the car were sold out within a few hours after the car was unloaded. On Tuesday forenoon we made up more than fifty large fruit orders.

The prices shown below will convince you that you can buy your fruit in Strathmore, of the very best quality, and pay less for it than you would by buying outside.

Get your order in quick before the remainder of the car goes.

HEAVY YIELDS IN WHEAT
Reports of some heavy yields of wheat are coming in from country points. In the Raymond district one farmer has an average of 54 bushels on his wheat average, and at Magna

another farmer has averaged 51 bushels from 140 acres. At Lacanba a report of 52 bushels from one farm is reported. Threshing will not be general for another week or ten days, however.

GRAIN PRICES

September 18, 1923

The following grain prices are for grain by wagonload at Strathmore, not track prices, and for information of the public only. Figures are kindly supplied by Mr. T. H. Eves, of the Robin Hood Elevator.

TOURIST TRAVEL HEAVY

Probably in no other year in its history has tourist travel to Alberta been as heavy as this year, and in even heavier year is anticipated for 1924. The Canadian National Railway reports the heaviest year in tourist traffic in its history, many hundreds having visited Jasper Park. The C.P.R. convey similar information, and the reports of auto traffic show that this has also been very heavy. Nearly 5,000 cars, many of them from United States points, has been registered at Banff Park alone up to the end of August.

NEXT WEEK WITH THE CHURCHES

Sunday, September 23rd, 1923

NAMAKA—Combined service beginning with Bible study at 11 o'clock. H. A. Espey, S. S. Supr.

CHEMILE—Bible School for all ages opens at 2:30 p.m. W. T. Bickel, Supr. Sermon by the pastor.

STRATHMORE—Bible School of training classes, 11 to 12 o'clock. W. G. Way, Supr. Public Worship at 7:30 p.m. The minister will speak on "The Japanese Earthquake—What Shall we think of nature?" The choir, under the leadership of Mr. Lydell, will lead the music.

Mrs. Hille, our former pianist, will assist in the choir. Mrs. Howard will be at the piano.

PRATT RANGERS—Chordle "Grey Eagles" meet on Fridays at 7 p.m. Strathmore "Teepees" meet on Thursdays at 7:45 p.m.

ST. MICHAEL AND ALL ANGELS' CHURCH

12:15, noon, Sunday School, Strathmore.

3:30 p.m., Evensong, Nightingale.

7:30 p.m., Evensong, Strathmore.

ROMAN CATHOLIC CHURCH

1st Sunday of month, Mass at 9:00 a.m. Strathmore 11 a.m. 3rd Sunday of month, Mass at 9:00 a.m. Strathmore at 11 a.m.

Rev. J. E. DUGGAN, Pastor.

PRINCE IN ALBERTA

The Prince of Wales, as Lord Renfrew, reached Alberta this week for his month's stay on his ranch near High River. His visit is entirely unofficial, and there will be no formal functions.

Local Notings

OF LOCAL INTEREST
• Readers are requested to send in items for this column not later than 12 o'clock Monday noon preceding day of publication. All local news items are welcomed by the Standard. Phone 17 or 68.

The infant son of Mr. and Mrs. F. W. Fraser died at the parents' home on September 15. Service took place at C. W. Chase's funeral parlour on September 18. Rev. Rowe officiating. Interment was made in Strathmore Cemetery.

The editor of the "Bassano Mail" hearing that the Prince of Wales may engage in a poker game being got up for his benefit by the cowpunchers of High River and district, suggests that if he stopped off at Bassano a few of the boys there might teach him some tricks with "the bones." The Mail'scribe could give him a few pointers as he has to pass several more of less distinguished visitors among them being the editor of this paper.

Mr. and Mrs. John A. McDonald, C.P.R. Agent, Carbon, and Mr. H. F. Joyce, Carbon, visited Strathmore recently by motor. Mr. McDonald was formerly station agent at Strathmore.

Mr. and Mrs. Fred Moore have arrived back in Leader, Sask., after a holiday in England. Mrs. Moore is a daughter of Mr. and Mrs. Tom Crawford, Strathmore.

Messrs H. F. Tompkins and G. T. Berry have invested in new cars within the past few weeks, the former purchasing a McLaughlin, and the latter a Maxwell.

Mr. Arthur Wright, Edmonton, visited his brother, Mr. T. E. Wright, for several days last week. Mr. Wright is a machine operator on the Edmonton Bulletin.

A meeting of the creditors of Mr. C. J. Alkerman was held in the King Edward Hotel last Wednesday.

Mr. and Mrs. James Gardner, of Victoria, B.C. have for several weeks been on a visit to their son, Mr. H. Gardner.

Mrs. R. H. Anderson and family are at present on a visit to the Coast. Strathmore Cadet Corps had the honour of being chafed this year with the first twelve rural corps, though only instituted a few months ago. This shows considerable credit to the boys, and also to Principal Whitney, their instructor. Their score was only two points less than Verreille, which has been established for the past ten years.

As will be seen from our advertising column, Mr. R. Fox has received a car of mixed fruit from B.C. which he is selling at prices that will make it pay you better to buy in Strathmore than to visit the city.

Mrs. McIntosh, of Acre, is a visitor to Strathmore, as the guest of Mr. and Mrs. Alex. Gray.

A daughter was born to Mr. and Mrs. William Snook on Monday of this week.

S. L. Large, owner of a farm near Strathmore, writes from Valley City, North Dakota, that 10 degrees of frost were registered at that point on September 12.

Mr. Nash, of the Attorney-General's Department, Washington, D.C., visited with his son, Mr. T. H. Buckenfield, and left for the East again on Monday. Mr. Nash had been in California on official business.

The wheat crop of the province of Alberta, according to latest estimates, is just a shade under 150,000,000 bushels. That is an enormous amount of wheat, even if the price is only 75¢ a bushel. And in addition to wheat we have much other grain, probably an enormous crop, and other things that can be turned into money. This province is on the way back.

Weather Report

Supplied by C. P. Irrigation Dept. September 11 to 17

16	37.2	60.0	
17	29.2	66.8	

When to Cut Sunflowers for Silage

The growing of sunflowers for silage is a comparatively new idea. Most people who are growing them have had no previous experience and are not sure when is the time to cut them in order to get the best results.

With the object of getting some definite information on this question an experiment was conducted at Brandon Experimental Farm last fall. Six small silos were made each holding about half a ton of silage. A field of sunflowers was blocked out into equal suitable areas for the test. The first block was cut on August 15th when the heads of the sunflowers were just forming or in some plants, had not started to form. Later cuttings were made at definitely observed periods up to October 2nd, when the last block was cut. In each case the sunflowers were allowed to lie on the ground for 24 hours as representing practical farm conditions. They were then hauled to the barn cut up, and put into the small silos. The silage was well tramped and was weighed in with a 200 pound cement block which compressed the material somewhat similarly to actual silo conditions. The date and stage of cutting, percentage of moisture in material when put in silo and yield per acre are given in the following table.

Silo No. 1—Date cut, Aug. 15; stage cut, heads forming or not formed; percentage moisture when ensiled, 51.7; yield per acre, tons 12, pounds 588.

Silo No. 2—Date cut, August 25; stage cut, 10-12 per cent in bloom; percentage moisture when ensiled, 57.5; yield per acre, tons 14, pounds 215.

Silo No. 3—Date cut, August 31; stage cut, 25-27 per cent in bloom; percentage moisture when ensiled, 72.1; yield per acre, tons 14, pounds 860.

Silo No. 4—Date cut, September 7; stage cut, 60-65 per cent in bloom; percentage moisture when ensiled, 76; yield per acre, tons 14, pounds 1856.

Silo No. 5—Date cut, September 17; stage cut, 100 per cent in bloom; percentage moisture when ensiled, 72.2; yield per acre, tons 12, pounds 320.

Silo No. 6—Date cut, October 2; stage cut, 50 per cent ripe, remainder in dough stage; percentage moisture when ensiled, 65.2; yield per acre, tons 11, pounds 86.

The silos were all opened early in December. The ensilage was found to have kept perfectly in all the silos, with very little waste on top. Samples for analysis were taken at quarter way from the top and quarter way from the bottom of each silo. These contents of the silos were used on the milking cows for a palatability test. These cows were accustomed to sunflower silage so that there was no prejudice against a new feed to encounter. A thorough test using a considerable number of cows, and extending over two weeks made. All the silage were eaten reasonably well but No. 4 was eaten up the most quickly and most completely. No. 2 and 5 followed closely after it. No. 6 was next, and No. 1 and 3 seemed too green to meet with as high favour as the others.

A study of the analysis figures closely corroborative of "Cows' taste." The fibre in No. 6 is distinctly higher than in the rest. The fat in No. 1 and 2 is distinctly lower than the rest. No. 2, 4, and 5 are not very much different in analysis and appear to be better than those at either extreme.

In so far as are one test justifies making any deduction, it would appear that sunflowers that are from 50 per cent in bloom to full bloom are in the best stage for cutting for silage.

W. C. McTIGLIAN,

Supr. Experimental Farm,

Brandon, Man.

PARTY VISITS TAR SAND PLANT

A party, including several prominent officials of the province, and others, paid a visit to the tar sand deposit, and the oil extraction plant located at Waterbury, last week, under the guidance of John Callaghan, Deputy Minister of Railways. The party was much interested in what was being done to place the tar sand on the basis of commercial use both for paving purposes and for extraction of oil. The plant at Waterbury is owned by McMurtry Asphaltum and Oil, Ltd., Ltd.

Two carloads of poles have arrived for a new telephone line to be laid in the territory from Rockyford north to the Belcher-Dumcheller trail. This will be a big service to farmers north of town. The new telephone directories have arrived, and can be had at the office.

WINNIPEG, Man.—Winnipeg gave a royal welcome last week to ex-Mayor R. D. Waugh, who left four years ago to become member of the Bow Valley Commission appointed by the League of Nations, and returned as chairman of the Manitoba League of Nations, a post which the provincial government asked him to accept two months ago. He said the commission would administer the League Act impartially, fearlessly and justly.

Mr. Waugh spoke humorously of the situation. "I did not bring a barrel with me on the train, but I can assure you it's on the road," he asserted, and added: "You remember I left here as water commissioner, or chairman of the great Winnipeg water district; now I return to you as a while commissioner, and the two should make a jolly combination which should be a great help to the people, and the action of the Act will be entirely successful."

NOTICE TO CREDITORS AND CLAIMANTS.

In the Estate of DANIEL EDISON FORKIN, late of Rockyford, Alberta, farmer, deceased.
Notice is hereby given that all persons having claims upon the estate of the above named Daniel Edison Forkin, who died on the 12th day of June, A.D. 1922 are required to file with Mr. J. B. McGuire, Barrister, Rockyford, Alberta, by the first day of November, A.D. 1923, a full statement, duly verified, of their claims, and of any securities held by them, and that after that date the executor will distribute the assets of the deceased among the parties entitled thereto, having regard only to the claims of which notice has been so filed, or which have been brought to his knowledge.
Dated this 6th day of September, 1923.

57 Bushels To Acre

A remarkable yield was recorded on Mr. John Stacey's farm last week when 57 bushels wheat per acre was threshed from 25 acres. The total for the whole 400 acres of wheat, which has now been threshed, was, we understand, 52 bushels per acre.

Threshing is just getting under way. No threshing has been done north of Rockyford yet, but a number of outfits are starting up this week.

The remainder of Miller and "Cannon" wheat averaged 26 bushels per acre. The field on the west side of the road, as recorded last season, averaged 11 1/2 bushels per acre.

FALL CHAUTAUQUA COMING

Miss V. Gibson, of Dominion Chautauqua, visited Rockyford on Thursday. A meeting was held in the Bow Chambers on Thursday afternoon, and the following committees were appointed to look after arrangements. Chautauqua will be on October 1 to 2 inclusive.

Chairman, C. R. Wainwright; Secretary, Treasurer, J. B. McGuire; Advertising Committee, J. P. Dwyer, Dr. Tiffin, F. W. Gibson; Arrangement Committee, F. W. Paul, F. E. Ryan, Thos. Birt; Public Arrangement Committee, L. L. L. Ketterhagen; Ticket Committee, J. B. McGuire, H. E. Blingworth, W. S. Clements, Dr. Tiffin, Thos. Birt.

BREWERY CHALLENGE

POSTPONED TILL SPRING
The games which were to have taken place with Fernie on Saturday for the Brewery Cup has been postponed till spring, as harvest conditions here would make it hard for the players to turn out, and there would not be many spectators for the same reason.

ROCKYFORD AND EDMONTON MEET FRIDAY

Rockyford and Edmonton Red Sox have to play a sudden death contest to decide which team will meet Medicine Hat for the provincial senior amateur baseball championship and the holder of the Broule cup. The Alberta Baseball Association has ruled that these teams play Friday at 1 p.m. on the Friday diamond, and if the club fails to arrive on schedule by Wednesday morning, J. A. McGee, president of the association, will make the appointment.

Earl Brown, Jean captain of the Rockyford club, has been indefinitely suspended on account of surely conduct, alleged to have been committed during the Edmonton-Rockyford series recently in Olds. The association made this order, and also decided to report the matter to the amateur union for further deliberation.

Rockyford Locals

Gen. Kennedy's steam threshing outfit, headed there in a special train at the edge of the road at Teds station on Saturday. His men have been working almost continuously since he got it on, but have not succeeded up till Monday evening.

Dr. Robinson, Doctor, Strathmore, will visit Rockyford every Monday until further notice, commencing September 24th. While in Rockyford he will be found in the McGuire building.

Consable J. Carr, A.P.P., who has been on a three weeks vacation is now back, and expects a very good time this time away.

Ed Wilson and family have returned from an extended visit to the States. Mr. Wilson commenced his duties at the depot on Tuesday.

Track shooters were out in full force on Saturday. Bill Walker and Ted Tiffin brought in the largest bag, 21 ducks, Bill Rudd, Hill and Illingworth coming next with 22. How many did Lewis's crowd get?

Bill Curran and Gillespie treated the guests of the Hotel to a read of nudges.

Miss E. Jackson, of Toronto, is visiting Mr. and Mrs. M. E. Tiffin for a few days.

Young Bert Gibson has gone and done it again. This time he received quite a nasty cut in the foot, but is able to limp around.

St. Rita's Altar Society Annual Banquet, Supper and Dance, will take place on Thanksgiving Day, November 12.

Rockyford stockholders report very good business since harvest commenced. Some of them have had to make hurry-calls to Calgary wholesalers recently.

See the new Victrola in the Rockyford Drug Co. One of the latest cost designs.

How to make your skin fresh and clear

Palm and olive oils—nothing else—give nature's green color to Palmolive Soap

Made in Canada

Every woman passes as pretty if only her skin is fresh, smooth and young. It is within the power of every woman to possess this attraction to make her complexion as beautiful as she longs for it to be.

The secret? Cleopatra knew and practiced it in the days of ancient Egypt. She observed a daily ceremonial cleansing. The cleansers she used were the same you may have today, Palm and Olive oils.

These beautiful oils are scientifically blended in famous Palmolive Soap. They give mildness, wonderful soothing qualities, protect, cleanse and refreshing lather.

Cleansing with Palmolive is a beauty treatment in itself. No woman should say her skin is too sensitive to use soap until she has tried Palmolive.

The attractive green cake, the natural color of the oils, is within the reach of every one who appreciates that cleanliness is a great beauty.

You can buy Palmolive Soap at all first class dealers.

AN ERRONEOUS IMPRESSION

There is an erroneous impression abroad that the Provincial Government has changed all dates for opening of the shooting season.

The only date which has been changed is that for the opening of the duck season, which was moved forward from September 1st, to September 15th. The opening season for partridge is as it always has been, the entire month of October, the only change in this respect being an order prohibiting shooting of partridge north of the Battle River. The open season for prairie chicken is unchanged, being from October 15, to October 21.

IS A REAL BOOSTER

Boost, and the world boosts with you; Knock, and you're on the shelf. For we all get sick of one who'll kick. And wishes he'd kick himself. Shout when the sun is shining; Hurrah when it starts to rain; If you happen to fall, don't lie there and howl. But get up and boost again. Boost for your own welfare, Boost for all that's right, For he who has shown he don't boost alone Is a booster by day or by night.

RECEIVER UNDER BANKRUPTCY ACT READY FOR ACTION

OTTAWA, Sept. 11.—Honourable E. Pratt, registrar of the Supreme court, has been appointed receiver under the newly amended bankruptcy act, passed at the last session of the federal parliament. The new appointment, according to several well known legal authorities, will mean that all bankruptcies will first have to go to the official receiver, who will act as the receiver until such time as a meeting of the creditors is called and a receiver or an authorized trustee appointed.

Looking Forward

The more you think about the future, and about Opportunity and Success, the more enthusiastic you become about being a money saver.

If you have mastered the art of saving, you can forecast with reasonable accuracy how much of a factor you will be in the days of opportunity which are drawing near.

"Enable your Saviour
to CAN do more."

NO FICS FROM THISTLES
Breeding to pure bred dairy sires
instead of scrub sires, is simply a
certain and sure way to obtain cattle
producing more milk and butterfat.
As surely as you cannot obtain grapes
of thorns, nor flies of thistles, you cannot
produce pure bred dairy stock by
keeping scrub sires.

Slat's Diary

Friday—Mr. Gillen was a telling pa-
that he has bought all new shoes.
Plugs and new tires for
his automobile and set
about nothing who did
only things that is left
that was on are 2nd
handed ford when we
but it is the Xmas
pipe and the Mortgage.
Saturday — Jimmy
Brent was asking pa for
day if he believed in
long incense to a
girl of the opposite
Sex, and pa set after
he had went and looked
around to see if he was
In the dropping distance he says Yes
Jimmy I believe in long incense
because the longer you are incense
the lessor (the) you not to stay near.

Sunday—the kid from Boston
like as if he is too good for the
rest of the gang and he won't have
nothing to do with me because he says
I'm only just a newspaper man. MY
all I got to say is that the only differ-
ence between his pa and mine is
that hisen is winning his bid.
Million \$ wife mine I still hameing
away on his first Million \$.

Monday—Pa saythe preacher at
church is a good preacher but he
doesn't no very much about histry be-
cause when he act him what was the
date when John L. Sullivan lose his
last battle the preacher replied and
answered what War it was in.

Tuesday—Women have got sum fun-
dles a specially ma about how a \$1.00
shud ought to wash and eat. Ma
all ways insist that I got to wait
the back of my neck and then at the
same time she tells me it is very im-
portant for a boy to turn his back on
emr one. How they going to see it
it that the Case.

Wednesday—Went on a picnic with
a lots of fokes today and had fried
chicken and other things. Pa and me
has decided that it is a good stunt to
get up picnics once and a while be-
cause when you go to eat where they
are lots of outsiders you always get
more to eat on acct. it looks better.

Thursday—Ma was reading Enick
Arden which is a very sad poem to
be told and that is I pome I all
ways like to hear because it all ways
make my nose itch.

QUEBEC GETS MONEY

FROM "DRY" AMERICA

It is tourists from "dry" America
who, during the happy vacation season,
jam hotels so that they overflow
into nearby apartment houses. It is
money from the pockets of "dry"
America that, according to official es-
timate, contributes 90 per cent. of the
Government's income from the sale
of liquor, an income that, allowing
annually \$1,000,000 for highways and
\$2,000,000 for education, will wipe out
the public debt of the Province in
twenty years, to say nothing of the
millions that go to the Dominion
Government as liquor duties.

There is always a gentle rain in
the expression of eyes and voice when
the citizens of Quebec talk of "dry-
ness" in the United States; so also
there is a certain pride manifest in
the way he speaks of the respect of us
Latinas for the liberty of the individual.
(It is perhaps unnecessary
to reveal to the reader's memory that
over 80 per cent. of the inhabitants of
Quebec Province are of French origin.)

The American visitor sighs low;
he knows that he is enjoying a right,
a liberty or a license—call it what
you will—that has been taken away
from him; hence, also the daily
newspapers contain constant reminders
of that weakness of spirit is his
portion.

NEW ALL-STEEL CARS BEING INSTALLED ON NATIONAL SYSTEM

Typical all steel first-class coach, of which forty-one have been ordered this year by the Canadian
National Railways. They are made in Canada. These cars have been designed by the main run of the

CANADIAN GIRL OPERATES
FARM AND DAIRY
Miss Mary Anderson of Vawn, Sask.,
with the help of a few of grade high
teen cows supports her invalid mother
in comfort and is looking for tenured
only bank account, also told the
members of the Saskatchewan Dairy-
men's Association at a meeting held
in Prince Albert, Canada.

Miss Anderson and her mother
came from Sweden in 1912 to join
father who had homesteaded in the
district of the district. She had lived in
a small city and knew nothing of farm-
ing. When her father bought a few
cows they were given into her care.
She made a study of dairying and be-
came convinced that better cattle
would bring better results so she in-
duced her father to purchase some
grade Holstein cows and plant a por-
tion of his farm to sunflowers and
corn for silage.

Just when the crops were ready to
harvest her father died, leaving her
with the entire care of the farm.
Neighbors told her to sell out but she
decided to stick. She cut the grain,
made the harvest and milked the
cows. That was four years ago.

"I do a man's work" said Miss An-
derson, "but I enjoy it. Each cow
costs the attention of a world's cham-
pion. I feed the herd a carefully pre-
pared ration of oats, barley, flax and
corn for silage.
